BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Continuously chargeable waste compactor

- Waste compactor for recyclable wastes and residual wastes
- Crushing and compaction of the waste through right/left rotation of a specially equipped steel drum
- Compaction of the waste in a cube-shaped, transparent PE bag
- Continuous filling

Working method

1. Simple and continuous filling via the large-dimensioned filler chute.
2. Collection, crushing and compaction of the waste by a rotating special drum.
3. The highly compacted waste is located in a previously suspended PE bag with a standard pallet below and can be easily removed with a hand-operated lift truck.
4. The waste bundle, ready to be used, can be comfortably driven to the collection site.

Continuously chargeable waste compactor

BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Product description

The Roto-Compactor, invented by BERGMANN, are THE alternatives for an efficient and CONTINUOUS waste collection directly at the collection site. For over 20 years, they have been contributing to minimising the cost of waste handling with the highest compaction rates.

Special characteristics of the Roto-Compactor are the quiet, low-maintenance hydraulic drive, the compaction in PE bags on standard pallets, minimised space requirements and a high quality standard of a product with a well-developed technology and design.

Continuously chargeable waste compactor

BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Economic efficiency

- The Roto-Compactor collects, shreds and compacts the waste by a specially equipped steel drum, which ensures a compaction rate of up to 10:1
- Particular suitable for collecting residual waste, as well as recyclable garbage (for example, cardboard boxes, packing foils, polystyrene, fruit crates, cans, etc. and residual waste)
- Continuous filling possible - the filler chute can also remain open during the compaction
- Reduction of disposal costs of up to 80%
- The packing station can be operated by anyone. No training is necessary
- Comfortable operation by clearly arranged push buttons
- The type of waste is evident at any time through the transparent PE bag
- The assembly can take place directly on the site of the waste accrual on your premises. The costs of waste handling and therefore personnel costs for employees are avoided
- Is ideally suitable for continuous filling through chutes or conveyor belts
- Low-maintenance through hydraulic drive
- The work environment remains clean and hygienic
- Easy emptying and simple transport of the compacted material
- Minimisation of the utility space, thus saving the storage costs of convention containers
- The packing station replaces expensive and space-consuming large containers
- Reduction of the number of emptying journeys to a minimum = drastic savings by fewer disposal costs
- Designed for solid continuous use
- Proven worldwide for over 20 years with the highest quality standard
- Negligible operating noise
- Well-developed design and technology on the basis of many years of experience
- High, fast and available for spare parts for many years, guaranteed for 15 years
- Worldwide service network

Continuously chargeable waste compactor

BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Technical characteristics

- Small space requirement of only 1.10 x 1.60 m
- Huge loading aperture (approx. 920 x 670 mm)
- Enormously high processing capacity
- Low operating noise of only max. 65 dBA in 1 m distance
- Filling possible by means of chutes or conveyor belts
- Electrical equipment in accordance with country specifications in many tension and phase variants
- Easily accessible hydraulic power pack facilitates servicing
- Machine CE-certified
- Completely “Made in Germany” by qualified and experienced staff

Continuously chargeable waste compactor

BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Equipment

Standard equipment

- Drum for paper and cardboard boxes
- Filling chute
- Electrical protection system IP 44 (dust-proof, splash-proof)
- Branded hydraulic pump
- Working hour counter
- Autotimer
- Oil level monitoring
- Overload protection

Accessories

- Pointed roof constructed from glass fiber reinforced plastic
- Photo electric cell
- Full message via horn or flashing light
- Water sprinkling against dust formation
- Ozone generator against unpleasant odors
- and many more
- ... ask for special versions

Continuously chargeable waste compactor

BERGMANN Roto-Compactor

Roto-Compactor PS 800 (800 litre capacity)

Locations

Everywhere, where waste more easily accumulates, as in:

- Supermarkets
- Large-scale catering establishments, hotels
- Restaurants
- Industry
- Banks
- Hospitals and homes for the elderly
- Trade
- Service industries
