BERGMANN Roto-Compactor Roto-Compactor APS 1100-E (1,100 litre, optionally 1,000 litre capacity)

Continuously chargeable waste compactor for 1,100 litre standard roller bins

- Waste compactor for recyclable wastes and residual wastes
- Crushing and compaction of the waste through right/left rotation of a specially equipped steel drum
- Continuous filling
- Waste compaction in a 1,100-liter STANDARD roller bin

Working method

1. Inserting the roller bin in the Roto Compactor.
2. Continuous filling by everyone via the large-dimensioned filler chute.
3. Collection, crushing and compaction of the waste through rotating special drum.
4. The highly compacted material can be easily removed and transported by roller bins. Subsequent collection by disposer.

Continuously chargeable waste compactor for 1,100 litre
standard roller bins

BERGMANN Roto-Compactor

Roto-Compactor APS 1100-E (1,100 litre, optionally 1,000 litre capacity)

Product description

The Roto-Compactors invented by BERGMANN combine the advantage of continuous filling with the efficient collection of waste and garbage right at its source. The compaction takes place directly in the standard 1,100 litre roller bins, which can be removed from the disposal vehicles.

Low space requirements and high compaction results lead to maximum cost savings as expensive and space-consuming large bins can be replaced.

The high BERGMANN quality standard of a product with a well-developed design and technology as well as the silent low-maintenance drive are standard features of the APS 1100.

Continuously chargeable waste compactor for 1,100 litre standard roller bins

BERGMANN Roto-Compactor

Roto-Compactor APS 1100-E (1,100 litre, optionally 1,000 litre capacity)

Economic efficiency

- BERGMANN's invention and own development with decades of experience
- Continuous loading – also with opened filler chute
- Compaction of the waste for a reduction in the number of emptying journeys keeping them to a minimum = drastic savings through fewer disposal journeys
- Compaction results of up to 10:1 by the special compaction drum, which collects, shreds and compacts the waste
- Particular suitable for collecting residual waste, as well as recyclable garbage (for example, cardboard boxes, packing foils, polystyrene, fruit crates, cans, etc.)
- Reduction of disposal costs of up to 80%
- Simple operation of the Roto Compactor
- Comfortable operation by clearly arranged push buttons
- The roller bin facilitates easy handling of the compacted waste
- The assembly can take place directly on the site of the waste accrual on your premises
- Costs of waste handling and therefore personnel costs for employees are avoided
- Is ideally suitable for continuous filling through chutes or conveyor belts
- Contribution to a clean work environment and thus increased work safety
- Easy emptying and simple transport of the compacted material
- Minimisation of the utility space for storing garbage, thus saving on the storage costs of conventional containers
- The Roto Compactor replaces expensive and space-consuming large space containers
- Designed for intensive, continuous use.
- Negligible operating noise
- Total solution for a clean, hygienic and, above all, space and cost-saving garbage handling
- Proven worldwide for over 20 years with the highest quality standard
- Well-developed design and technology on the basis of many years of experience
- High, fast and available for spare parts for many years, guaranteed for 15 years
- Worldwide service network

Continuously chargeable waste compactor for 1,100 litre
standard roller bins

BERGMANN Roto-Compactor

Roto-Compactor APS 1100-E (1,100 litre, optionally 1,000 litre capacity)

Technical characteristics

- Requires little space
- Huge loading aperture
- High processing capacity
- Low operating noise
- Electrical protection class IP 44
- Filling possible by means of chutes or conveyor belts
- Machine CE-certified
- Completely “Made in Germany” by qualified and experienced staff

standard roller bins

BERGMANN Roto-Compactor

Roto-Compactor APS 1100-E (1,100 litre, optionally 1,000 litre capacity)

Equipment

Standard equipment

- Special compaction drum for paper and cardboard boxes
- Faceplate
- Electrical protection class IP 44
- Autotimer
- Working hour counter
- Overload protection
- Full message via indicator lamp

Accessories

- chute
- Special compaction drum for foils with blade set
- Cone roller with 24 cones for strong pasteboards
- Roof
- Additional full message via horn or flashing light
- Water sprinkling against dust formation
- Ozone generator against unpleasant odors
- and many more
- ... ask for special designs

Continuously chargeable waste compactor for 1,100 litre
